ABOUT

Highly skilled Full Stack Developer with 4 years of experience, including over 2 years as a team lead at a startup. Expertise in software design, development, and integration, specialising in JavaScript and TypeScript. Proven track record in creating dynamic, responsive web applications for startups. Strong communication skills and a dedicated team player adept at client collaboration.

EXPERIENCE

A Good Shout LTD, London, *Senior Front End Developer*
Jan 2021 - PRESENT

- I maintained and implemented new features on existing **React Native** and **ReactJS codebases,** working closely with backend developers and product designers.
- Collaborated with developers and system analysts to upgrade existing systems and architecture for improved performance and maintainability. Debugged and fixed reported front-end application issues.
- I wrote **unit tests** and ensured **test coverage of over 80%**.
- Integrated third-party services into applications such as **AWS** and **Firebase**.

PrimeBazaar, Lagos - *Lead Mobile Developer **(React Native)** - contract*
Feb 2024 - May 2024

- **Led the development** of a mobile e-commerce platform, enabling users to **browse and purchase products** with seamless, user-friendly interactions.
- Built and integrated **UI components**, managed state with **Redux**, and developed key features like **product search, filtering, shopping cart,** and **secure checkout**, ensuring **performance optimization** and responsiveness.
- Collaborated with the backend team to integrate **REST APIs** for real-time data, payments, and authentication, while performing **testing, debugging, and code reviews** to ensure smooth functionality on both **iOS and Android** devices.

Hemify, Lagos - *Backend Developer - contract*

Aug 2024 - PRESENT

- Orchestrated the backend development for a platform which allows users to stake on future events
- Developed the **REST APIs**, managed the **database migration**, deployment to production, and maintained API documentation.
- Facilitated user interactions with the existing APIs by debugging, updating, testing endpoints, and performing code reviews.

Afro Verified, Lagos *- Front End Developer - contract*

Feb 2019 - Dec 2020

- **Developed a customer-facing dashboard** using **React** and **NextJS**, collaborating with developers to upgrade systems for improved performance and maintainability.
- Utilised **React** and **Redux** to build **responsive user interfaces**, while working with UX/UI designers to ensure a consistent, visually appealing experience and debugging front-end issues.

Hello World Technologies , Lagos *- Intern*

Jan 2018 - Dec 2018

- **Designed, built, and maintained** websites using **Figma** and modern **frontend technologies**, collaborating with content teams to update web page content.
- **Identified and resolved issues** from testing and customer feedback while staying up-to-date with **current web technologies** through continued learning and professional development.
